

# GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

Team ID	PNT2022TMID16001
Project Name	Gas Leakage Monitoring & Alerting system for Industries

## SCREENSHOT OF IBM CLOUD:

The screenshot displays the IBM Cloud console interface. At the top, the navigation bar includes the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (SOWMIA K S's Account). The main content area shows the 'Internet of Things Platform-dp' resource, which is active. A sidebar on the left lists 'Manage', 'Plan', and 'Connections'. The central panel features a diagram of a device connected to a network, followed by the heading 'Let's get started with IBM Watson IoT Platform' and a description: 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' Below this, there are 'Launch' and 'Docs' buttons. Further down, a section titled 'Ready for the next level?' introduces the 'IBM Watson IoT Platform Journey' with three stages: 'Lite' (selected), 'Non-Production', and 'Production'. Each stage has a brief description of the service plan.
